Why doTERRA?

dōTERRA's Certified Pure Therapeutic Grade™ (CPTG™) essential oils are 100% pure natural aromatic compounds carefully extracted from plants. They do not contain fillers or artificial ingredients that would dilute their active qualities and free of contaminants such as pesticides or other chemical residues.

As important as it is to keep contaminants out of our oils, assuring the presence of their active compounds, at the right levels, is necessary to guarantee safety and effectiveness. Many oils claim to be therapeutic grade, and some may be pure, but few are subjected to rigorous testing standards for chemical composition. dōTERRA's CPTG™ essential oils are cross tested using mass spectrometry and gas chromatography to ensure both extract purity and composition potency of each batch.

Three simple ways to use CPTG™ Essential Oils

Aromatically

Internally

Topically

dōTERRA literally means gift of the earth in Latin. DoTerra is unleashing the power & purity of the plants of the earth to you in your home. The lavender is harvested in France. The helichrysum harvested in the wild in the mountains of the Baltic states. The peppermint comes from Washington state and the Frankincense from Oman, Jordan.

Experience **dōTERRA**

Pure. Powerful. 100% SAFE. Effective. Versatile. Easy to use
